This book is of great practical value in discovering and celebrating the transforming energy of the Feminine Principle of Divinity. Part I covers the myriad faces of the Goddess revealed, including: Her presence throughout history; Her Earth and Moon symbolism; Her Madonna and Magdalene disguises; Her revelation within the psyche; Her relationship with women; Her influence today; and much more. Part II covers ritual invocations of the Goddess in 13 guises: from Ishtar to Isis, from Hecate to Aphrodite, from Epona to Ma'at. Part III gives an alphabetical listing of more than 1000 goddesses including a brief history and the main correspondences of each. This is an important work by the Farrars providing an indepth exploration of the Goddess in her many aspects at a time when Western culture is awakening to the influence of Feminine Divinity, both individually and collectively.
