2015-2016 Basic and Clinical Science Course (BCSC), Section 5: Neuro-Ophthalmology American Academy of Ophthalmology

2015-2016 Basic and Clinical Science Course, Section 05: Neuro-Ophthalmology

Provides a symptom-driven approach to the diagnosis and treatment of major neuro-ophthalmic conditions. With the focus on the patient, this book emphasizes examination and appropriate adjunctive studies, including a discussion of diagnostic imaging modalities, and leads the reader through the sometimes subtle manifestations of neuro-ophthalmic disease to anatomical localization of lesions and definitive diagnosis. An overview of the anatomy of visual pathways is accompanied by many illustrations.

Upon completion of Section 5, readers should be able to:

- * Describe a symptom-driven approach to patients with common neuro-ophthalmic complaints in order to formulate an appropriate differential diagnosis
- * Select the most appropriate tests and imaging, based on symptomatology, to diagnose and manage neuro-ophthalmic disorders in a cost-effective manner
- * Assess eye movement disorders and the ocular motor system

Section chair: Rod Foroozan, MD

About the BCSC

The Academy's Basic and Clinical Science Course (BCSC) is ophthalmology's definitive compilation of scientific research and clinical experience. It is continually updated by a faculty of more than 80 expert ophthalmologists. Each of the 13 volumes includes fundamental clinical knowledge; numerous tables, photos and illustrations; self-assessment questions with answers; and opportunities for earning AMA PRA Category 1 Credit(TM).

Beginning with the 2013-2014 edition, the Academy and the European Board of Ophthalmology (EBO) have partnered to make the BCSC the standard text for all European ophthalmology training programs. The EBO now recommends the BCSC as the primary educational resource for European trainees and ophthalmologists studying for the annual EBO Diploma Exam.

From reader reviews:

Carolyn Fletcher:

The actual book 2015-2016 Basic and Clinical Science Course (BCSC), Section 5: Neuro-Ophthalmology has a lot of information on it. So when you read this book you can get a lot of advantage. The book was compiled by the very famous author. The writer makes some research prior to write this book. This book very easy to read you may get the point easily after perusing this book.

Paul Birch:

This 2015-2016 Basic and Clinical Science Course (BCSC), Section 5: Neuro-Ophthalmology is brand-new way for you who has interest to look for some information as it relief your hunger info. Getting deeper you into it getting knowledge more you know or else you who still having little bit of digest in reading this 2015-2016 Basic and Clinical Science Course (BCSC), Section 5: Neuro-Ophthalmology can be the light food for you because the information inside this particular book is easy to get by anyone. These books develop itself in the form which can be reachable by anyone, yep I mean in the e-book web form. People who think that in publication form make them feel sleepy even dizzy this publication is the answer. So there is no in reading a book especially this one. You can find what you are looking for. It should be here for you. So , don't miss the item! Just read this e-book kind for your better life and also knowledge.

Anthony Wood:

Do you like reading a guide? Confuse to looking for your selected book? Or your book seemed to be rare? Why so many problem for the book? But almost any people feel that they enjoy for reading. Some people likes reading, not only science book but also novel and 2015-2016 Basic and Clinical Science Course (BCSC), Section 5: Neuro-Ophthalmology or perhaps others sources were given expertise for you. After you know how the great a book, you feel want to read more and more. Science publication was created for teacher or students especially. Those publications are helping them to increase their knowledge. In various other case, beside science e-book, any other book likes 2015-2016 Basic and Clinical Science Course (BCSC), Section 5: Neuro-Ophthalmology to make your spare time much more colorful. Many types of book like here.

Mohammed Strohl:

A lot of guide has printed but it differs. You can get it by internet on social media. You can choose the most effective book for you, science, comedy, novel, or whatever by simply searching from it. It is named of book 2015-2016 Basic and Clinical Science Course (BCSC), Section 5: Neuro-Ophthalmology. You can include your knowledge by it. Without departing the printed book, it can add your knowledge and make an individual happier to read. It is most critical that, you must aware about publication. It can bring you from one location to other place.
