The FE Review Manual is designed to prepare you to pass the general FE exam even if you have very limited study time. You get an efficient review of all the current exam topics; diagnostic exams so you can see what areas you need to study; more than 1,150 practice problems (with solutions); a realistic simulation of the complete 8-hour exam; and free software to help reinforce what you've learned. Plus, the Review Manual is completely in sync (same terminology, formulas, topic order, etc.) with the NCEES handbook that is used during the exam. This combination is so effective that the publisher offers a unique "Pass or Don't Pay" Guarantee: pass the exam, or get a full refund for the book.

Please note, software is not included in the book, but you may request software by using the form inside the book. The software is free, but there is a \$4.95 shipping fee.
