Principles of Plasma Discharges and Materials Processing , 2nd Edition Michael A. Lieberman, Alan J. Lichtenberg

A Thorough Update of the Industry Classic on Principles of Plasma Processing

The first edition of Principles of Plasma Discharges and Materials Processing, published over a decade ago, was lauded for its complete treatment of both basic plasma physics and industrial plasma processing, quickly becoming the primary reference for students and professionals.

The Second Edition has been carefully updated and revised to reflect recent developments in the field and to further clarify the presentation of basic principles. Along with in-depth coverage of the fundamentals of plasma physics and chemistry, the authors apply basic theory to plasma discharges, including calculations of plasma parameters and the scaling of plasma parameters with control parameters.

New and expanded topics include:

- * Updated cross sections
- * Diffusion and diffusion solutions
- * Generalized Bohm criteria
- * Expanded treatment of dc sheaths
- * Langmuir probes in time-varying fields
- * Electronegative discharges
- * Pulsed power discharges
- * Dual frequency discharges
- * High-density rf sheaths and ion energy distributions
- * Hysteresis and instabilities
- * Helicon discharges
- * Hollow cathode discharges
- * Ionized physical vapor deposition
- * Differential substrate charging

With new chapters on dusty plasmas and the kinetic theory of discharges, graduate students and researchers in the field of plasma processing should find this new edition more valuable than ever.

From reader reviews:

Nancy Hartsell:

Nowadays reading books be than want or need but also work as a life style. This reading addiction give you lot of advantages. The huge benefits you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The data you get based on what kind of reserve you read, if you want drive more knowledge just go with knowledge books but if you want feel happy read one using theme for entertaining including comic or novel. The particular Principles of Plasma Discharges and Materials Processing , 2nd Edition is kind of reserve which is giving the reader unforeseen experience.

Dan Fry:

This book untitled Principles of Plasma Discharges and Materials Processing , 2nd Edition to be one of several books in which best seller in this year, that is because when you read this e-book you can get a lot of benefit on it. You will easily to buy this kind of book in the book retailer or you can order it through online. The publisher on this book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Touch screen phone. So there is no reason to you personally to past this publication from your list.

Keesha Marks:

The reserve with title Principles of Plasma Discharges and Materials Processing , 2nd Edition contains a lot of information that you can understand it. You can get a lot of gain after read this book. That book exist new knowledge the information that exist in this publication represented the condition of the world at this point. That is important to yo7u to know how the improvement of the world. This specific book will bring you throughout new era of the globalization. You can read the e-book in your smart phone, so you can read the idea anywhere you want.

Brenda Robert:

Some individuals said that they feel fed up when they reading a reserve. They are directly felt the idea when they get a half areas of the book. You can choose often the book Principles of Plasma Discharges and Materials Processing , 2nd Edition to make your own reading is interesting. Your own skill of reading ability is developing when you just like reading. Try to choose basic book to make you enjoy to see it and mingle the opinion about book and looking at especially. It is to be initially opinion for you to like to start a book and examine it. Beside that the e-book Principles of Plasma Discharges and Materials Processing , 2nd Edition can to be your brand-new friend when you're experience alone and confuse with what must you're doing of their time.
