Agile Business Rule Development: Process, Architecture, and JRules Examples Jérôme Boyer, Hamed Mili

Business rules are everywhere. Every enterprise process, task, activity, or function is governed by rules. However, some of these rules are implicit and thus poorly enforced, others are written but not enforced, and still others are perhaps poorly written and obscurely enforced. The business rule approach looks for ways to elicit, communicate, and manage business rules in a way that all stakeholders can understand, and to enforce them within the IT infrastructure in a way that supports their traceability and facilitates their maintenance.

Boyer and Mili will help you to adopt the business rules approach effectively. While most business rule development methodologies put a heavy emphasis on up-front business modeling and analysis, agile business rule development (ABRD) as introduced in this book is incremental, iterative, and test-driven. Rather than spending weeks discovering and analyzing rules for a complete business function, ABRD puts the emphasis on producing executable, tested rule sets early in the project without jeopardizing the quality, longevity, and maintainability of the end result. The authors' presentation covers all four aspects required for a successful application of the business rules approach: (1) foundations, to understand what business rules are (and are not) and what they can do for you; (2) methodology, to understand how to apply the business rules approach; (3) architecture, to understand how rule automation impacts your application; (4) implementation, to actually deliver the technical solution within the context of a particular business rule management system (BRMS). Throughout the book, the authors use an insurance case study that deals with claim processing.

Boyer and Mili cater to different audiences: Project managers will find a pragmatic, proven methodology for delivering and maintaining business rule applications. Business analysts and rule authors will benefit from guidelines and best practices for rule discovery and analysis. Application architects and software developers will appreciate an exploration of the design space for business rule applications, proven architectural and design patterns, and coding guidelines for using JRules.

From reader reviews:

Ashley McKay:

What do you about book? It is not important together with you? Or just adding material if you want something to explain what the one you have problem? How about your time? Or are you busy person? If you don't have spare time to complete others business, it is give you a sense of feeling bored faster. And you have free time? What did you do? All people has many questions above. The doctor has to answer that question mainly because just their can do that will. It said that about reserve. Book is familiar on every person. Yes, it is proper. Because start from on guardería until university need that Agile Business Rule Development: Process, Architecture, and JRules Examples to read.

Laura McCallum:

Reading a e-book can be one of a lot of activity that everyone in the world loves. Do you like reading book therefore. There are a lot of reasons why people fantastic. First reading a publication will give you a lot of new information. When you read a reserve you will get new information because book is one of numerous ways to share the information or perhaps their idea. Second, reading a book will make anyone more imaginative. When you reading a book especially tale fantasy book the author will bring someone to imagine the story how the people do it anything. Third, you may share your knowledge to others. When you read this Agile Business Rule Development: Process, Architecture, and JRules Examples, you can tells your family, friends and soon about yours book. Your knowledge can inspire the mediocre, make them reading a e-book.

Donald Noble:

Reading a guide tends to be new life style within this era globalization. With reading you can get a lot of information that can give you benefit in your life. Having book everyone in this world may share their idea. Textbooks can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or perhaps their experience. Not only the storyplot that share in the books. But also they write about the data about something that you need illustration. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors in this world always try to improve their proficiency in writing, they also doing some study before they write with their book. One of them is this Agile Business Rule Development: Process, Architecture, and JRules Examples.

Henrietta Belcher:

People live in this new morning of lifestyle always make an effort to and must have the spare time or they will get great deal of stress from both way of life and work. So , when we ask do people have time, we will say absolutely without a doubt. People is human not only a robot. Then we consult again, what kind of activity are there when the spare time coming to you of course your answer may unlimited right. Then do you try this one, reading publications. It can be your alternative within spending your spare time, the particular book you have read will be Agile Business Rule Development: Process, Architecture, and JRules

Examples.
