Backyard Water Gardens: How to Build, Plant & Maintain Ponds, Streams & Fountains Veronica L. Fowler

Veronica Fowler's comprehensive step-by-step manual shows you not only how to install your water garden, but maintain it entirely on your own.

Backyard Water Gardens teaches you how to install liners, pre-formed shapes, containers, and aboveground pools and fountains. From there, it helps you choose plants, add them to your garden, fertilize, prune, divide, and ward off pests and diseases. But Fowler's book goes far beyond the basics, covering all the maintenance and troubleshooting of water feature hardscapes—from a rip in a liner, to a damaged pool, to maintaining equipment and filters (including seasonal maintenance for winter care). Veronica Fowler's *Backyard Water Gardens* allows you to fully enjoy the convenience and versatility of water gardening, all while maintaining it with ease for years to come.

Backyard Water Gardens is truly an all-inclusive manual, encompassing every style, type, and size of water feature imaginable. No matter the "feel" you wish to convey in your garden—casual, formal, or whimsical—Fowler's book enables you to create it with confidence. Your range of hardscape options is incredibly vast, from small, container-sized fountains that complement any space with added sound and movement, to large in-ground or aboveground ponds and streams. Larger installations not only provide soothing, rejuvenating sights and sounds; they can also house fish and plants and passively attract natural wildlife to your backyard.

From reader reviews:

John Long:

Book is actually written, printed, or illustrated for everything. You can realize everything you want by a book. Book has a different type. As you may know that book is important point to bring us around the world. Alongside that you can your reading talent was fluently. A publication Backyard Water Gardens: How to Build, Plant & Maintain Ponds, Streams & Fountains will make you to be smarter. You can feel a lot more confidence if you can know about every thing. But some of you think this open or reading any book make you bored. It isn't make you fun. Why they may be thought like that? Have you searching for best book or suited book with you?

Stacy Vincent:

The reason? Because this Backyard Water Gardens: How to Build, Plant & Maintain Ponds, Streams & Fountains is an unordinary book that the inside of the guide waiting for you to snap that but latter it will distress you with the secret it inside. Reading this book adjacent to it was fantastic author who else write the book in such wonderful way makes the content within easier to understand, entertaining technique but still convey the meaning thoroughly. So , it is good for you for not hesitating having this nowadays or you going to regret it. This book will give you a lot of rewards than the other book include such as help improving your ability and your critical thinking technique. So , still want to hesitate having that book? If I ended up you I will go to the e-book store hurriedly.

George Lehman:

In this era globalization it is important to someone to find information. The information will make a professional understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of referrals to get information example: internet, magazine, book, and soon. You can view that now, a lot of publisher this print many kinds of book. The actual book that recommended to your account is Backyard Water Gardens: How to Build, Plant & Maintain Ponds, Streams & Fountains this e-book consist a lot of the information on the condition of this world now. This book was represented how does the world has grown up. The vocabulary styles that writer value to explain it is easy to understand. Often the writer made some analysis when he makes this book. This is why this book ideal all of you.

Marco Manuel:

As a student exactly feel bored to help reading. If their teacher inquired them to go to the library in order to make summary for some reserve, they are complained. Just little students that has reading's heart or real their passion. They just do what the instructor want, like asked to the library. They go to right now there but nothing reading really. Any students feel that examining is not important, boring along with can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's

country. Therefore , this Backyard Water Gardens: How to Build, Plant & Maintain Ponds, Streams & Fountains can make you sense more interested to read.
