Curbside Consultation in Neuro-Ophthalmology: 49 Clinical Questions Andrew G. Lee MD, Paul W. Brazis MD, Lanning B. Kline MD

Curbside Consultation in Neuro-Ophthalmology has been updated into a **Second Edition!**

The **Second Edition** contains new questions and is completely updated!

Curbside Consultation in Neuro-Ophthalmology: 49 Clinical Questions, Second Edition contains new questions and brief, practical, evidence-based answers to the most frequently asked questions that are posed during a “curbside consultation” between surgical colleagues.

Dr. Andrew G. Lee and associate editors Dr. Paul W. Brazis and Dr. Lanning B. Kline have designed this unique reference in which neuro-ophthalmologists offer expert advice, preferences, and opinions on tough clinical questions commonly associated with neuro-ophthalmology. The unique Q&A format provides quick access to current information related to neuro-ophthalmology with the simplicity of a conversation between two colleagues. Images, diagrams, and references are included to enhance the text and to illustrate common clinical dilemmas.

Some of the questions that are answered inside the *Second Edition* include:

- What is the evaluation for papilledema?
- What is the work up for third nerve palsy?
- What is the treatment for giant cell arteritis?
- What is the evaluation for optic disc edema with a macular star?
- What is the evaluation for anisocoria?

Curbside Consultation in Neuro-Ophthalmology: 49 Clinical Questions, Second Edition provides information basic enough for residents while also incorporating expert pearls that even high-volume ophthalmologists will appreciate. Residents, fellows, and practicing physicians alike will benefit from the user-friendly, casual format and the expert advice contained within.
