**Aphasia and Related Neurogenic Communication Disorders** Ilias Papathanasiou, Patrick Coppens, Constantin Potagas

Aphasia and Related Neurogenic Communication Disorders covers topics in aphasia, motor speech disorders, and dementia. Organized by symptom rather than syndrome, this text provides a foundation for understanding the disorders and learning how to apply basic theory to clinical practice in the development of rehabilitation objectives. Aphasia and Related Neurogenic Communication Disorders applies a clinical integration of the psychosocial with the neuropsychological approach in adult language rehabilitation. Written by international authorities in the field of aphasia and related communication disorders and based on the ICF framework, this unique text features diverse contribution covering global issues.
