The format of debating used at the World Universities Debating Championships (also known as British Parliamentary or Worlds-style debating) is the international standard for academic debating. Ganar Debates is both an introduction to the format and an advanced consideration of strategies and tactics proven to be effective techniques for successful debating. The text combines a review of the basics of argument theory with an application of those theories to the four-team style of debate. Also addressed are the special strategic and tactical considerations for debates in the Worlds style.
