Bridal Couture: Fine Sewing Techniques for Wedding Gowns and Evening Wear Susan Khalje

The apparently effortless grace of a successful gown is always underpinned by solid dressmaking skills - the skills described in "Bridal Couture". Starting with a portfolio of breathtaking gowns designed by the author, "Bridal Couture" covers all the major techniques used to sew these sumptuous couture creations, including choosing fabric, working with lace, creating a muslin, and problem-solving tricky construction issues. Every conceivable style of skirt, sleeve, and bodice is included, as well as suggestions for fabric combinations to evoke just the right mood. A final section details the construction of four actual gowns, giving readers a chance to apply what they've learned. Ideal as a wish book for brides, a textbook for sewing students, a reference book for dressmakers, or a companion book for anyone hiring a dressmaker, "Bridal Couture" is finally a book about fashion and the practical knowledge needed to create fantasy.
