Is America still the world's most celebrated and beloved superpower? Is this great nation poised for an amazing American century-or instead for a slow descent into mediocrity? In *The American Boomerang*, possibly one of the most important books of our time, philosopher and author Nick Adams explores America through sympathetic Australian eyes. In this fresh look, Adams reveals the turnaround nature of Americans, or their boomerang spirit. Optimistic while pragmatic, *The American Boomerang* makes the case for American exceptionalism and continued American dominance throughout this century. It takes us from the founding to the present, sharing an inspiring vision along the way, and makes the case that American values are conservative values, and to preserve its exceptionalism, America must remain a center-right nation. Despite the prophets of gloom, in the eyes of outsider Nick Adams, America the Great will only continue to become greater.
